## **Summary of Activities – November 2009**

Tony Niles is a Corps of Engineers fellow working for Senator Vitter. I had a couple meetings with Tony and we discussed SCP hurricane protection and lack of on the West side of the river. I wanted to understand the process from his prospective to be able to figure out ways to better position the parish for authorization. I had the same type meetings with Megan Bel in Cong. Scalise's office and Chris DeBosier in Melancon's office. I spoke with Parish President St. Pierre about same to learn from the Parish leadership perspective. I was then referred to Sam Schole for more in-depth discussions. A conference call was then set up with SCP folks, Sam Schole, Holly Fanseca and Pontchartrain Levee Authority Chairman Steve Wilson and hill staffers Chris DeBosier (Melancon), Megan Bel (Scalise), Tony Niles, Vitter. The purpose of the call was for everyone to get on the same page and for hill folks to understand what the parish is doing and how they are working with Corps in their development of Hurricane protection and vice versa, for SCP folks to understand what committee professional staff will be evaluating in making their decisions on which projects are chosen for authorization, all geared towards potential WRDA 2010 Authorization. These discussions will be ongoing.
